

**Back by
Popular Demand
Exhibitors Row**

Exhibitors will be on hand promoting products and information that you will find useful in building optimal learning environments for students with Down syndrome.

**New This Year
Student Work Gallery**

Teachers are encouraged to bring student work samples, pictures, or other materials to share with your fellow educators.

Note: All materials must be clearly labeled with contact information and will be returned directly after the conference.

The goal of the SEE ME BEAUTIFUL conference is to provide a venue for educators and parents to access information about learning strengths and best teaching practices for children with Down syndrome. We believe that the most effective and rewarding learning experiences for our children come about when educators, clinicians, administrators and parents work as a team.

Teaching Math To Students with Down syndrome

Would you like to help your student develop mathematical concepts? Even more, would you like your student to be able to use money, tell time, use fractions, shop, bake, budget and other everyday tasks that involve numbers? It is possible if parents and teachers work together to incorporate some principles of good teaching and a variety of hands-on experiences. Let DeAnna show you how!

Dr. DeAnna Horstmeier has a interdisciplinary doctorate in Speech and Language, Special Education and Child Development. She is the author of *Teaching Math to People with Down Syndrome and Other Hands-On Learners: Basic Survival Skills*, *Teaching Math Activities and Games (CD-ROM)*, and *Teaching Math to People with Down Syndrome and Other Hands-On Learners: Book 2: Advanced Survival Skills*. More importantly, she is the parent of a young adult with Down syndrome who keeps her "real". Come get some practical suggestions and share your successes with us.

Sexuality & Relationships

Sandy will discuss how to help young people learn to appreciate their changing bodies. She will address the importance of self-care, along with health considerations. Sandy will also suggest ways to help students understand boundaries and develop healthy social relationships.

Sandy Hyman, MSW, RSW, CACE, is an award winning social worker and community leader with years experience. Sandy has worked in the area of sexuality and education in schools with adolescents and adults with disabilities. Sandy has many practical suggestions and resources to recommend.

Registration

Copy and complete one form for *each* participant. Payment *must* accompany registration. **Please print.** Educators, please try to register before the end of this school year to avoid the rush at the beginning of September.
